Annwyl John,

I'm getting in touch with you this afternoon to ask if you would consider having members of the public impacted by cladding problems to give evidence to the committee on the matter? They are the people most affected by the matters under discussion in the bill. I believe it is of the utmost importance for us to hear directly from the voices of those most affected by building safety issues.

Furthermore, it would be useful for the committee to consult with developers and building companies about the actions that lead to fire safety deficiencies in many high-rise buildings.

Sincerely,

Rhys ab Owen MS
