Dear Sir/Madam

Your request for more Senedd members should not even have been thought about. Lee Waters had been interviewed stating that £900 million cuts are required and it will impact a lot of services. Therefore how can we afford more members which would cost in excess of £120 million or more if you include expenses. So now is not a good time to decide on this when Wales is on its need with medical, care systems and public transport. Until you resolve what is important then you should be able to look at those options. However my lack of confidence in your ability to make the right decision concerns me as evidence of decision making, not been backed with strong scientific or research evidence. The other factor is based on facts that you serve the public but do not really listen to them. I am a proud Welsh person and take pride in Wales, but feel the government is letting the public down.

Regards

Leon
