I hereby declare my objection to an increase in the size of the Senedd. It is currently not very good value for money and object to making the chamber larger for no practical pr value for money benefit. Indeed the chamber has only devolved powers and does not do its job very well with the size that it is.

This includes failure on policies and expenditure on Cardiff Airport, M4 relief road at Newport, an appalling decision and strategy on 20mph speed limits and decisions on health in the past especially through the pandemic.

Whilst you may consider the above as a party political objection it is in-fact an objection to allow more people at more cost for a small nation that needs its finances for practical public use and not a need for more poor decision makers.
