Ymateb gan Unigolyn | Evidence from Individual

What are your views on the general principles of the Bill and the need for legislation to deliver the Welsh Government's stated policy objective (to make the Senedd a more effective legislature by ensuring it is broadly representative of the gender make-up of the population)?

Why not fix the health service instead?

What are your views on the system of enforcement and potential sanctions for non-compliance proposed in the Bill?

Fix the health service instead, please

Are there any potential barriers to the implementation of the Bill's provisions? If so, what are they, and are they adequately taken into account in the Bill and the accompanying Explanatory Memorandum and Regulatory Impact Assessment?

None that I can be remotely interested in thinking about

Are any unintended consequences likely to arise from the Bill?

What if you're Trans? Is there a diagonal rule?

What are your views on the Welsh Government's assessment of the financial and other impacts of the Bill?

No doubt it will cost way more. It always does

What are your views on the balance between the information contained on the face of the Bill and what is left to subordinate legislation? Are the powers for Welsh Ministers to make subordinate legislation appropriate?

Maybe

Do you have any views on matters relating to the legislative competence of the Senedd including compatibility with the European Convention on Human Rights?

Maybe the extra 36 AMs will cover it

Do you have any views on matters related to the quality of the legislation, or to the constitutional or other implications of the Bill?

No, but it would be nice if you spent more time and effort fixing the health service

Are there any other issues that you would like to raise about the Bill and the accompanying Explanatory Memorandum or any related matters?

Nope

Anything else?

Nope
