**What are your views on the general principles of the Bill and the need for legislation to deliver the Welsh Government's stated policy objective (to make the Senedd a more effective legislature by ensuring it is broadly representative of the gender make-up of the population)?**

Shockingly incompetent nonsense. Not a priority at all when there is a cost of living crisis, the nhs is falling apart, living standards falling, inflation rampant crime on the increase, huge issues that need to be tackled not the completely disproportionate and utter waste of resources the de&l legislation and focus is causing. Listen to the people of wales for once

**What are your views on the system of enforcement and potential sanctions for non-compliance proposed in the Bill?**

Absolutely shocking misuse of public resources. Scrap this entire bill and focus on improving the economy and health system and lowering taxes, not this utter peripheral nonsense

**Are there any potential barriers to the implementation of the Bill's provisions? If so, what are they, and are they adequately taken into account in the Bill and the accompanying Explanatory Memorandum and Regulatory Impact Assessment?**

Common sense

**Are any unintended consequences likely to arise from the Bill?**

Yes complete misuse of resource creating more beaurscrary and tick box measures and inequality towards men and the average population of wales

**What are your views on the Welsh Government's assessment of the financial and other impacts of the Bill?**

As usual insufficient and creating answers you want to hear not the truth

**What are your views on the balance between the information contained on the face of the Bill and what is left to subordinate legislation? Are the powers for Welsh Ministers to make subordinate legislation appropriate?**

Not appropriate. Focus on above areas

**Do you have any views on matters relating to the legislative competence of the Senedd including compatibility with the European Convention on Human Rights?**

We left the EU and should not consider any EU legislation in our law making

**Do you have any views on matters related to the quality of the legislation, or to the constitutional or other implications of the Bill?**

Stop

This

**Are there any other issues that you would like to raise about the Bill and the accompanying Explanatory Memorandum or any related matters?**

**Anything else?**
