What are your views on the general principles of the Bill and the need for legislation to deliver the Welsh Government's stated policy objective (to make the Senedd a more effective legislature by ensuring it is broadly representative of the gender make-up of the population)?

By using the term gender and not sex, it reduces the fairness of sex-based equality. Statistics, law, and policies should be based on biological sex, not gender identity.

What are your views on the system of enforcement and potential sanctions for non-compliance proposed in the Bill?

This strategy is categorically wrong. It is unfair and biased towards biological males who pose a risk to women and girls based on crime rates. Over 70% of sexual assaults and rapes in public happen in mixed sex changing rooms and toilets. 90% of transwomen have a penis. Statistically, transwomen (men) are MORE likely to be sexual offenders than non-trans identifying men based on national crime statistics.

Are there any potential barriers to the implementation of the Bill's provisions? If so, what are they, and are they adequately taken into account in the Bill and the accompanying Explanatory Memorandum and Regulatory Impact Assessment?

As a woman, rape victim, mother of a child abused by a transwoman, an exteacher and CAMHs support worker his must NOT go ahead.

What are your views on the Welsh Government's assessment of the financial and other impacts of the Bill?

The Bill will cost a huge amount of money that will out women and girls at risk. Money should go elsewhere, such as welfare, education, housing, the elderly, and the disabled.

What are your views on the balance between the information contained on the face of the Bill and what is left to subordinate legislation? Are the powers for Welsh Ministers to make subordinate legislation appropriate?

Anything else?

Please do NOT let any more women out girls have their lives ruined like my daughter and I because of 'self-identification'. It is NOT hate, it is science, biology, common sense, child protection, protection of the vulnerable, and fairness for women.
