

**Government Response: *The Charges for Residues Surveillance (Amendment) (Wales) Regulations 2024***

**Technical Scrutiny point:** The Welsh Government can confirm there is an error in column 2 of the table inserted as Schedule 1. The correct figure for 'Soliped' should be '0.4287' per carcase, instead of '0.04287'. This error is expected to have no impact, as there are currently no slaughterhouses in Wales that are licensed to slaughter solipeds.

Officials are currently liaising with the S.I. registrar to determine whether the amendments can be made by correction slip. The Welsh Government will notify the Committee once a correction has been made.
