### **1. What is your relationship, if any, to the International Strategy?**

I have not had a relationship to date

### **2. What are your views on the Welsh Government's International Strategy – what's worked well and any areas for improvement?**

I recognise and agree with the three key priorities

### **3. What are your views on the Welsh Government's priority international relationships for 2022-25?**

I think that progress is being made and I am most proud of the international recognition of the future generation act

### **4. What are your views on the availability of information on the Welsh Government's international activities and delivery of the strategy?**

I work to seek it out and follow a few people on LinkedIn. As I live in Wales I do not have a view from the outside

### **5. In your view, what information on the Welsh Government's international activities should be in the public domain?**

---

**6.** What are your views on how the Welsh Government's international activity is resourced?

**7.** What priorities and priority relationships would you like to see included in the Welsh Government's approach to international relations beyond 2025?

I don't think that you can underestimate the impact of sport in this arena - but it is rarely mentioned. If you go abroad and say you are from Wales - if you then say Gareth Bale - people get it. On top of that I think that mass participation sporting events like Running and Triathlon bring large numbers to the country but don't need expensive facilities. We need to attract and develop such events

**8.** Are there any other matters you would like to draw to the Committee's attention regarding the Welsh Government's international relations?
