

Government Response: The Development Procedure (Consultees) (Wales) (Miscellaneous Amendments) Order 2025

Technical Scrutiny point 1: The Welsh Government notes the point that both “the Natural Resources Body for Wales” and “Natural Resources Wales” have been used in the Order. Whilst the Welsh Government do not believe the drafting will lead to confusion for the reader, it is agreed it would have been preferable for the drafting to be consistent. This will be addressed in the next suitable legislative vehicle before the end of the year.
