

Dear sirs

I apologise for the delay in replying, but I have been waiting on information from Aneurin Bevan and Hywel Dda Health boards, that have failed to comply with the freedom of information act.

In the last 5 years there have been a total of 529 paediatric patients (between Abertawe Bro Morgannwg University, Betsi Cadwaladr University, Cardiff & Vale University and Cwm Taf Health Boards) that could have benefited from a paediatric neuro-rehabilitation centre in Wales. Powys Teaching Health Board do not have any paediatric services which, although is concerning in itself, does not have any impact on this petition.

Yours faithfully

Katherine Simmons
