SCME167 Ymateb gan: | Response from: Nick Morgan

I feel the senedd should look at the state of our country and the strength of anti senedd feeling there is in the country.

How you can possibly be thinking of increasing the cost of running the senedd absolutely amazes me at a time of cost of living crisis and the poor state of the health service and education and the way in which you absolutely ignore the people who voted you in.

You should look at all the money you have wasted in the past

£33m on the ridiculous 20mph fiasco which has almost 500,000 signatures on a petition and according to your own data has only reduced speed by 2.4 mph and received a categorically NO when the first minister was questioned, hardly democracy.

£150m returned to Central government, how could you possibly have allowed this to happen when you blame everything on a lack of funding !

£200m and rising on buying and propping cardiff airport

£157m on the newport relief road which has never been build and is causing more delays and pollution than ever !

£200m on failed enterprise zones

£100m on the heads of the valley road which still has a 50mph speed limit and also still has lane closures

£10m on the circuit of Wales in Ebbw Vale

The list goes on.

I wrote to lynne neagle regarding the 20mph and her reply left me in disbelief so much so that I replied to her and never got a response. Basically it showed how out of touch she was even to the point where she said that had been debating the 20mph for 4 years and in all that time no one had thought about the repercussions it would have, proving that the senedd operates in a bubble of its own with its own agenda ignoring what the people of Wales want.

We want more doctors, nurses and great teachers not administrators pushing their own agendas

Why you want a 4 year term not 5 is obviously increasing cost with no benefits

Why don't you want the name of the person on the ballot paper, no accountability there ?
