Deddf Teithio Llesol (Cymru) 2013 / Active Travel (Wales) Act 2013
Ymateb gan Chris Williams / Evidence from Chris Williams

The active travel act has so far brought no benefits Locally councillors are unaware of the huge benefits to all of active travel and focus on providing to motoring. We need top down approach and funding urgently New active travel plans include non segregated cycle lanes which no one will allow their kids in.

The act came in with huge fanfare and has been a huge disappointment with no change More air pollution and more child obesity Every single school should have segregated cycle lanes Then join them all up That's the start of your network Walking in welsh towns and cities is still a horrible experience with constant giving way to Cars.
