Public Accounts Committee

16 January 2020

Dear Chair

The Welsh Government's youth discounted bus fare scheme – MyTravelPass

Thank you for your letter of 29 October requesting further clarification on the number of 19-21 year olds holding MyTravelPass passes and the Welsh Government's approach to marketing of the scheme. I am sorry for the inconsistency in the numbers we have previously provided and the delay in responding to you, and hope that this response will address the various points you raised.

Number of 19-21 years old holding MyTravelPass passes

My letter of 1 October 2019 stated the number of 19-21 year olds holding passes in August 2019 was 551. This was inconsistent with previous information provided to PAC, which indicated there were 834 passes in May 2019.

We have been working to understand why the reported numbers had changed. Transport officials receive management information from different providers, with the data presented in different ways. We are now aware that some of the numbers provided previously were incomplete and did not include postal applications. Additionally, we are aware that timing delays inherent in updating the systems used for new cards approved and cards withdrawn – for example, as people age out – also led to inconsistencies in the data.

ACT, our back office provider, operates the database of journeys undertaken by MyTravelPass holders used by the bus industry to record discounted (and concessionary) bus journeys. We are working with ACT on reporting of data, but have agreed with them what data set should be used for consistency of reporting as we move forward. On this basis, the figures reported for the 19-21 age bracket should have been 931 valid cards created by the end May 2019; 1,619 cards by end August 2019; and 4,547 cards by end October 2019.

CF10 3NQ

Annex 1 provides a breakdown by age bracket of the number of valid travel cards created each month between January and October 2019. The significant increase in October 2019 is due to the improved marketing of the scheme, as illustrated below.

Welsh Government's approach to marketing of the scheme

Annex 2 details the marketing activities undertaken since January 2019.

You will see we have used social media to promote the initiative as it is a highly targeted method to reach the primary audience (16-21 year olds) and secondary audience (parents and guardians of 16-18 year olds), and it can be measured.

Facebook advertising and "Snapchat Top Snaps" were the most engaging platforms for 16-21 year olds. Display and audio advertising did not perform as well as expected.

An excellent digital performer was UCAS Media as it targeted 10,000 freshers attending Welsh Universities. Attending fresher events is a very important vehicle to actively reach the target audience to create awareness and stimulate signup.

Ambient activity (e.g. bus stop posters) cannot be measured, but remains an important marketing tool to help create the awareness of the product.

I hope this information will assist you with your further deliberations.

With best wishes.

Yours sincerely

A handwritten signature in black ink, appearing to read 'A. Slade', with a stylized flourish at the end.

Andrew Slade
